Forecast For Wales
Issued by Met Office Exeter
at 1600 on Wednesday 15 Sep 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Variable cloud with a spot of coastal rain overnight.

This Evening and Tonight:
Staying dry this evening with some late sunny spells. Overnight, cloud will increase from the west and give the odd, isolated shower, mainly in the north. Some clear spells as well, under which mist or fog patches may form. Minimum temperature 9 deg C (48 deg F).

Thursday:
A dry and largely sunny day after any early fog has cleared. Breezy along western coasts, a slim chance of an light afternoon shower. Feeling warm in the sunshine. Maximum temperature 20 deg C (68 deg F).

Outlook for Friday to Sunday:
Increasing cloud on Friday with outbreaks of rain for a time. Sunny spells on Saturday with the chance of a few showers. Variable cloud on Sunday with some showery outbreaks.
